कानों की नियमित जांच जरूरी : गर्ग

नई दिल्ली (एसएनबी)। विश्व श्रवण दिवस के उपलक्ष्य में यहां मौलाना आजाद मेडिकल कॉलेज में डिपार्टमेंट ऑफ कम्यूनिटी मेडिसिन की निदेशक प्रोफेसर व साउंड हीयरिंग 2030 की महासचिव डा. सनीला गर्ग ने कहा कि शिशु के जन्म लेने से जीवन की अन्तिम सांस लेते रहने तक नाक, कान, गला जीवन को सामान्य रूप से जीने के लिए अहम होता है। इसमें बचपन से लेकर श्रवण (सुनने की क्षमता) सामान्य रहे, इसके लिए यह जरूरी है कि नियमित कानों की क्षमता की जांच कराई जाए। लेकिन ऐसे देखा गया है कि लोग कान के प्रति ज्यादा संवेदनशील नहीं होते हैं जिस तरह से वे दिल, दिमाग, पेट व अन्य शरीर के रोगों के उपचार, निदान व जांच के प्रति रहते हैं। विश्व स्वास्थ्य संगठन द्वारा दुनिया भर में सुनाई देने की क्षमताओं की स्थिति पर तैयार की जा रही रिपोर्ट में कोर कमेटी की सदस्य डा. गर्ग ने कहा कि इस साल का थीम है 'सुनने की क्षमता सभी के लिए'।
